

Personal Security Suite

The Time Warner Cable Business Class Personal Security Suite is designed to protect your individual desktop computers from viruses, destructive e-mail attachments, and illegal monitoring. Powered by Computer Associates® Internet Security Suite™, the suite includes anti-spam, anti-virus, firewall, and pop-up blocker. Personal Security Suite is also dynamically updated, adding the latest virus definitions and protecting your employees' PCs with the most up-to-date software possible.

Personal Security Suite features:

- Personal firewall protection
- Certified anti-virus protection
- Expandable coverage, supporting any number of computers
- Dynamic updates
- Protection for remote users outside your company's network
- Easy installation

Getting Started

1. Open an Internet browser and go to <https://pss.twcbc.com>
2. Click on Registration in the menu bar at the top, fill out the form, and click Confirm. Subscribers who successfully register will receive a welcome e-mail with download instructions, sent to the e-mail account that was used during registration.
3. Following the instructions you received in the welcome e-mail, download and install Internet Security Suite™.

Still need help?
