

Business Class Phone

The elements of business.™

VOICE SERVICE To Fit Your Business

As a business owner, you need one provider who can reliably deliver all of the powerful communications solutions necessary to compete in today's market. Time Warner Cable's Business Class Phone allows you to receive your data, voice, security and video services from one single provider.

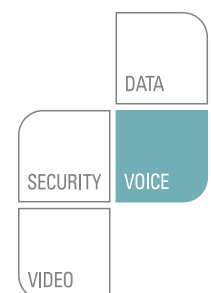

Our robust multi-line service includes unlimited local, intrastate and long-distance calling within the United States, Canada, Puerto Rico, U.S. Virgin Islands, Guam and Saipan—all delivered over our secure, reliable network at a convenient, flat monthly rate, with no unadvertised, annoying fees.

Business Class Phone requires no investment in new equipment, and you can keep your existing telephone numbers. We allow you to control every aspect of your business by configuring each line independently in order to meet your specific feature and call restriction requirements. And important business-oriented features like hunting, inbound and outbound call restrictions, non-verified account codes and three-way call transfer are included at no additional cost.

All this, in addition to the local, dedicated support we provide to all of our business customers, makes Time Warner Cable Business Class Phone an ideal choice for your voice communications needs.

Time Warner Cable Business Class offers a comprehensive suite of data, voice, security and video communications solutions. Contact your local Time Warner Cable office for a consultation on how to best meet your business communications requirements.

- > **Simplicity**
One provider for all of your communication services means you pay only one bill, simplifying administration.
- > **Reliability**
Private, secure and reliable network resulting in high-quality transmissions.
