

K-12 Education

As a K-12 education institution, your institution faces the challenge of improving the educational experience with constrained budgets and limited resources. In order to leverage costly new education technologies, your organization requires solutions that address bandwidth needs and enable effective communications. Time Warner Cable Business Class tailors solutions for K-12 institutions that empower you to affordably provide cutting-edge technology to students and staff.

The Convergence of K-12 Education and Technology

Time Warner Cable Business Class understands your K-12 education requirements because we've helped institutions like yours gain greater network performance to improve educational offerings and management. Our local, knowledgeable professionals work with you to address your technology challenges:

- Providing secure and scalable communications to the classroom, library, and computer lab, as well as administrative offices
- Improving bandwidth capabilities to cost-effectively accommodate large software applications that enhance learning
- Leveraging funding options such as E-rate to improve the quality of education through broader technology access

Call On Time Warner Cable Business Class

Time Warner Cable Business Class helps provide secure Internet access from your libraries and administrative offices, to your teachers' and students' desks. Our solutions work within your budget parameters while allowing you to keep your mind on what really matters – your students.

E-Rate Opportunity*

E-rate provides discounts for schools and libraries to obtain affordable telecommunications and Internet access

Since its inception in 1998, schools and libraries have taken advantage of more than \$18 billion in E-rate funds

On average, E-rate provides about \$2 billion in funding each year
