

Manufacturing

As a manufacturing company, global competition requires your organization to minimize production costs while ensuring product quality. Manufacturers leverage Time Warner Cable Business Class solutions to avoid costly network downtime and create cost-effective relationships with suppliers, customers, and employees.

The Convergence of Manufacturing and Technology

Time Warner Cable Business Class understands your manufacturing business requirements because we've helped businesses like yours improve network performance to reduce downtime. Our local and knowledgeable professionals work with you to address your top concerns:

- Ensuring reliable high-bandwidth connectivity of plants and other facilities regardless of geographic location
- Integrating solutions that support productivity through improved communications between plant, suppliers, and headquarters
- Improving bandwidth flexibility to meet requirements for Web-based production applications and technologies

Put Time Warner Cable Business Class to Work for You

Time Warner Cable Business Class helps manufacturing companies achieve a sustainable competitive advantage through enhanced supply chain communications, increased productivity, and reduced downtime with our robust and reliable network. Our solutions work within your parameters to allow you to keep your mind on what really matters – your business.

Manufacturing Need for Network Availability*

Each hour of downtime can cost a manufacturer up to \$1.5 million in lost sales, employee productivity, supply chain disruption, service level penalties, and damage to share value

Manufacturing

With Time Warner Cable Business Class solutions for manufacturing companies, you can leverage a robust network that supports your commitment to integrate data from the factory floor and supply chain through to sales and service. Our established, wholly-owned network offers scalable bandwidth and dedicated support to improve operational and strategic supply chain communications and decision making. We also provide you with:

- **Metro Ethernet Solutions** backed by robust, resilient ring technology that enhances network reliability and diversity – regardless of plant or facility location
- **Superior managed security** to protect your entire business operation
- **Dedicated Internet Access** to provide secure transmission of sensitive corporate or process data over a dedicated and continuous connection between your local area network (LAN) and the Internet
- **Award-winning, local customer support** from professionals who live and work where you do

Our Solutions

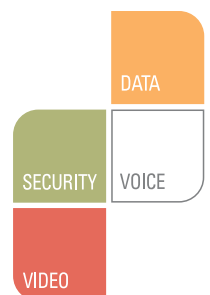

Let the power of Time Warner Cable Business Class support your need to connect your production floor, suppliers, distribution centers, and customers. No matter where they do business, manufacturing organizations like yours are improving network performance and productivity with our manufacturing network solutions:

- Fiber-Based Services
 - Metro Ethernet Solutions
 - Dedicated Internet Access
- Cable Broadband Solutions
 - Branch Office Solutions
- Managed Security
