

TIME WARNER CABLE Government Solutions

TELEWORKING

Time Warner Cable is a leading provider of communications services to government agencies. Our wide range of network connectivity options enables employees to work from various locations, including their homes.

Dependable High-Speed Teleworking Solutions For Increased Productivity

Time Warner Cable Teleworking Solutions ensure home-based teleworkers connectivity to agency resources as well as communication applications. Teleworking is an integral part of every agency's plan for continuity of operations as well as meeting government compliance guidelines.

Turn Disaster Preparedness Requirements into Operational Advantages

With Time Warner Cable Teleworking Solutions, agencies improve their ability to communicate with other agency employees, leadership and other agency elements. If government offices close or employees are quarantined, agencies must be able to provide flexible, secure access to applications, data and people, so staff members can continue to support and interact with citizens. Time Warner Cable Teleworking Solutions assist you in meeting these needs.

Dependable Teleworking Solutions – Flexibility and Reliability

Teleworking provides employees with the flexibility to work from remote locations, including their homes. Ensuring the uninterrupted operation of government is critical to the State of Ohio, especially in time of natural, economic or health emergencies such as earthquakes, flooding, extreme weather, terrorism, or pandemics like avian flu. Teleworking solutions from Time Warner Cable are a critical component to your continuity of operations planning.

Time Warner Cable offers multiple teleworker connectivity options, including:

- **Cable** – delivered over our high-speed coax infrastructure, employees are able to access applications and resources as easily as if they were in the office
- **Dial-up** – for those locations where you need access but are without a cable connection, Dial Access from Time Warner Cable is the right solution for you

Get the Benefits of Choosing an Experienced Provider

We recognize that having an effective teleworking solution requires more than just connectivity, which is why Time Warner Cable provides several optional services – including Firewall, Intrusion Prevention, Anti-Virus Protection, Anti-Spyware and Content Filtering – to assist you with securing your network resources.

Meeting the Teleworker Compliance Challenge

Time Warner Cable Teleworking Solutions help agencies meet other government compliance initiatives, including the Clean Air Act, Family and Medical Leave Act, Americans with Disabilities Act and the Consolidated Appropriations Act.

Time Warner Cable holds a State of Ohio Master Service Agreement

- Time Warner Cable is a pre-selected vendor; we help agencies focus on their IT needs instead of budget pressures
- Leveraging the State MSA lets each agency take advantage of lower administrative costs, billing in arrears, shorter lead times, and expedited network installation
